INFLATABLE ITEMS

INFLATABLE ITEMS IN PERSONAL STYLE

Create your own original print design of an inflatable ball, ring or heart and we will manufacture it for you.

For standard products, we have PDF patterns available that make your design work very easy.

Goods are being made of vinyl foil in accordance with Regulation EC No 1907/2006 (REACH), Annex XVIII, Items 51 and 52.

DESIGNING OF NEW INFLATABLE SHAPES AND PROMOTIONAL ITEMS

Based on the original product, drawing or design presented that specify exact dimensions, which you require to decorate your inflatable item with pattern within, we will prepare a hand-made prototype of the shape design and provide you with informative calculation. If the shape is satisfactory, we would order production of a welding device – electrode, and arrange for the print with you.

Before the first production, we will submit a reference sample for approval as a basis for serial production.

PRINT

Most frequently, we print logos, product names, titles or pictures on both, standard assortment and custom-made products. We use the screen-print technology when a single product can be printed with max. 4 direct colours. They might eventually overlap and thus create another shade

PRICE

Each newly developed product is calculated individually according to the item shape, number of printed colours, its complexity and the quantity required.
